

# Relief Valves and Bypass Valves

98H-30

The Fisher 98H is a self-operated relief valve for use on relief and back pressure applications involving large liquid propane pumping systems and vaporizers. Internal pressure registration eliminates the need for a control line. The 98H units are not UL listed.

## Relief Valves for Liquid Service

Part Number	Body Size	Relief Pressure Range
<b>98H-17</b>	1/2" FNPT	25 - 75 PSI
<b>98H-18</b>	1/2" FNPT	70 - 140 PSI
<b>98H-22</b>	3/4" FNPT	70 - 140 PSI
<b>98H-30</b>	1" FNPT	70 - 140 PSI
<b>98H-31</b>	1" FNPT	130 - 200 PSI
<b>98H-100</b>	2" FNPT	80 - 170 PSI
<b>98H-108</b>	1 1/2" FNPT	50 - 100 PSI
