

# VENTUR-EVAC

*Evacuating a propane tank has never been easier.*

The **VENTUR-EVAC** is designed FOR the propane industry BY propane people. Evacuating a propane tank has never been easier. Weighing only 7 pounds, the VENTUR-EVAC is highly portable and easy to use.

**Reduce Labor Costs:** Tank evacuations can now be performed by your delivery drivers while they are on their routes. By carrying the VENTUR-EVAC in the tool box of your bulk truck, additional service personnel are not required

**Tank Overfills:** Immediately remedy overfills by connecting the VENTUR-EVAC to remove excess gallons. No more calling back to the shop to dispatch service personnel for costly pump outs or flare offs.

**Gauge or Valve Repairs:** Efficiently evacuate propane into the bulk truck for valve or gauge repairs. Accomplish this task with your drivers while making deliveries.

**Welded Steel Construction:** The Ventur-Evac has no moving parts and no source of ignition.

**Flow Rate:** The Ventur-Evac has up to a 15 GPM flow rate and will not activate the excess flow valve.

**Works in all Weather Conditions:** The Ventur-Evac works great in both inclement and ideal weather conditions.
